THE COTTAGE GARDENS
LANSING ~ MICHIGAN

In Landscape Value the Modern Peony Stands Supreme

Modern Peonies furnish the Garden with color just as the Tulips are gone and when few plants are at their best.

As a specimen; in beds; in groups in the border, amongst shrubs and evergreens, or be it in the cut flower garden, modern Peonies always are a pleasure to the eye. Their fine constitution as a plant, their magnificence of bloom, their richness of foliage, their freedom from insect pests and diseases make them rank high amongst the finest plant material available to North American Gardens.

Although nearly every Peony variety lends itself for landscape effect, we especially draw your attention to the following sorts.

Red Shades

Adolphe Rousseau
Cherry Hill
Fuyajo (Jap)
Karl Rosenfield

Laciniata
Lord Kitchener (Renault)
Mary Brand
Mikado (Jap)

Mons. Martin Cahuzac
Richard Carvel
Soshi (Jap.)
Surugu (Jap.)

Mme. Auguste Dessert
Madeleine Gauthier (Single)
Pierre Duchartre
Reine Hortense

Rosette
Sarah Bernhardt
Souvenir de Louis Bigot
Suzette
Therese
Walter Faxon

General Information

SHIPPING TIME. We start shipping Peonies Sept. 1st, and continue until the ground freezes. Although we do not encourage spring planting, if you desire shipment in the spring, your order should be in in the fall, as we do not dig Peonies in the spring.

TIME TO PLANT. Peonies can be successfully planted from September 1st until the ground freezes. If you plant before October 15th the plants will have time to get established before Winter and will give some blossoms the following Spring.

SIZE OF PLANTS. We send out strong, fine, healthy divisions with three to five eyes. All divisions are from two- or three-year-old plants. **This is the most desirable plant for any purpose.**

Please do not hesitate to write for information any time you think we can be of service.

LARGER CLUMPS. Although we cannot recommend larger than standard plants, we can supply undivided two year clumps at double the price of 3-5 eye division; three year old clumps at three times the price of a standard division.

Guarantee

We guarantee our Peonies to be true to name, and provided our directions are followed, to bloom satisfactorily. We will replace free of charge, within three years from shipment of order, any plant or plants that prove otherwise.

Those who visit our establishment during the blooming season of Peonies can see that our system of recording and thorough rechecking when the plants are in bloom, eliminates rogues in our fields.

Digging and shipping are done under the supervision of men who know our Peony fields through and through. Therefore, mistakes are reduced to a minimum.

TERMS OF SALE: Unless otherwise specified terms of sale are cash, or, for customers known to us, thirty days from date of sale.

Unless otherwise specified, prices are F. O. B. Nursery.

OPEN ACCOUNT. If you prefer to pay after receipt of goods we will be glad to open an account if your initial order amounts to \$15.00 or over and is accompanied by references. We do not ship C. O. D. orders for less than \$5.00.

SAFE ARRIVAL. We guarantee the safe arrival of all goods sent by express or mail within the United States proper.

Cultural directions accompany all shipments.

Thoroughness in growing, together with up-to-the minute varieties, have made Cottage Gardens a mecca for those who appreciate fine Plant Material

Cottage Gardens' Exquisite Modern Peonies

Double Peonies (*Paeonia Chinensis*)

SIZE OF ROOTS: We send out strong divisions with from three to five eyes and adequate Root System Standard of the American Peony Society, from healthy plants not over three years old, grown on soil that has not been used for Peony Culture before.

We grow Peonies for their **ROOTS ONLY**; our efforts are directed entirely toward production of excellent Roots, that cannot help but give complete satisfaction.

Although we do not recommend the planting of undivided clumps, we will gladly furnish such in two year and three year old, respectively at twice and three times the price of Standard divisions.

What the ratings before the varieties mean:

9.5 or more, almost perfect.	9.0 very fine.
8.5 fine.	8.0 very good.
7.5 good.	

Rating (Symposium American Peony Society)	Each	Per Doz.
8.5 Adolphe Rousseau (Dessert & Mechin 1890). Dark velvety red with garnet hues and metallic reflex. Tall. Excellent for landscape effects.....	\$1.00	\$10.00
8.6 ALBERT CROUSSE (Crousse 1893). Dependable, late shell-pink, free-blooming, large flower with long stem. A very fine cutflower variety.....	.65	6.50
9.5 Alice Harding (Lemoine 1922). Large cream white flowers of perfect shape, midseason.....	25.00	
8.8 Alsace Lorraine (Lemoine, 1906). Free-flowering, pure white, tinted cream and buff in the center. Double. Late midseason; beautiful form.....	1.50	15.00
8.1 Arlequin (Dessert, 1921). Petals shaded mauve-rose with salmon base in center, outer petals deep violet-rose. Midseason.....	1.50	15.00
8.1 Asa Gray (Crousse 1886). Delicate pink with minute carmine dots. A sweet color and a cutflower par excellence.....	1.00	10.00
8.0 Assmanshausen (G. & K., 1912). Double, light pink flowers fading to white, late.....	2.50	25.00
8.7 AUGUSTE DESSERT (Dessert 1920). We prophesy that this variety within the next few years will receive very much attention. The color is a velvety rose carmine with silver-white border. Large flower, cupshaped with rounded petals. Unsurpassed in color.....	3.50	35.00
8.0 Aurore (Dessert, 1904). Free blooming, strong stems, semi-rose type, large A cheerful apple-blossom color overspread with yellow; desirable for landscape planting.....	.50	5.00
7.8 Augustin D'Hour (Calot 1867). A popular red, foliage deep glossy green and the flower, bomb-type, is a very deep rich brilliant red and strong straight stem. Free bloomer.....	.75	7.50
8.7 Avalanche (Crousse 1886). A splendid late white of perfect form. Dependable and one of the best white peonies.....	.50	5.00
9.0 BARONESS SCHROEDER (Kelway 1886). Foliage light green, flower large, of globular type, opening baby-pink changing to pure white. Blooms late, midseason. Ideal for cutting. Fragrant.....	1.00	10.00
8.7 Biebrich (G. & K., 1912). Double, flat, soft pink blooms with pleasing fragrance. Tall and free-blooming. Midseason to late.....	3.00	30.00
8.0 Boule De Neige (Calot 1867). Its name, which means "Snowball," describes the variety.....	.50	5.00
8.2 Brand's Magnificent (Brand 1918). Deep dark red, large flower.....	2.50	25.00
Charlot (Doriat 1924). Silvery lilac, carmine bottom, broad silvery border. Tall. An excellent variety.....	7.50	75.00

Baroness Schroeder

Rating		Each	Per Doz.
8.7	Cherry Hill (Thurlow 1915). Marvelous, soft velvety garnet red, tall. Not large but the color is outstanding, very fine grouped with white varieties....	2.00	22.00
8.7	CLAIRE DUBOIS (Crousse 1886). Many cutflower growers consider this variety superior to Mons Jules Elie. Of similar color, not quite so loose a flower and more globular and later than Jules Elie. Very large and one of the finest Peonies.....	1.00	10.00

THE COTTAGE GARDENS, LANSING, MICHIGAN

Rating		Each	Per Doz.
8.1	Couronne D'Or (Calot 1872). The "Crown of Gold." Good lasting qualities and very free blooming. White with a circle of golden stamens.....	.50	5.00
7.1	Delachei (Delache 1856). Deep purplish red, crimson reflex; a free-blooming red.....	.50	5.00
	Dr. H. Van Der Tak (Nieuwenhuyzen, 1916). A typical landscape peony. Lively crimson blossoms of immense size, with edges of the petals shaded lighter. Strong, tall grower. Early midseason.....	1.75	17.50
8.1	Duchesse De Nemours (Calot 1856). Early sulphur white with greenish reflex	.50	5.00
7.6	Edulis Superba (Lemon, 1824). Most popular early rose-pink.....	.50	5.00
8.5	ELISA (Dessert, 1922). Cup shaped flower of flesh-pink shaded salmon, early to midseason. Medium height. Exquisite in the landscape.....	5.00	50.00
8.7	Elwood Pleas (Pleas, 1900). Large full double flower; color a shade of light shell-pink with a lavender tone that is very delicate and yet does not fade in the sun. The plant is of medium height, stems rather weak.	1.00	10.00

We Suggest These Six Magnificent Peonies

(Order as Collection "A")

By planting Modern Peonies you do not feel that lack of color that is so evident after the Tulips have gone. This collection furnishes fine color thru-out the Peony blooming season and still is moderately priced.

Claire Dubois. Satiny pink, late.....\$1.00

Karl Rosenfield. Pure deep red, early midseason..... .75

Mme. Emile Lemoine. White, midseason..... .95

Marie Crousse. Uniform salmon-pink, midseason 1.00

Mons Martin Cahuzac, satiny maroon-red, early 2.25

Primevere. Nearest to yellow, midseason..... 2.50

List Price.....\$8.45

The Entire Collection, Prepaid

\$7.75

Rating		Each	Per Doz.
8.9	Enchantresse (Lemoine, 1903). Pure creamy white with guards splashed crimson. Tall strong grower; blooms late.....	2.00	
7.9	Estafette (Dessert, 1910). Large globular flowers, deep pink with mauve cast, semi-rose type. Early and free-blooming.....	1.50	15.00
8.3	Eugene Bigot (Dessert, 1894). Double deep crimson flowers on tall stiff stems. Late midseason.....	1.00	10.00
8.3	Eugene Verdier (Calot, 1864). High built flower shaded light shell-pink tinted cream. Late.....	1.00	10.00
8.4	FELIX CROUSSE (Crousse, 1881). For years this has been the standard red. A beautiful shade of rich brilliant ruby-red. Midseason.....	.75	7.50
9.3	Festiva Maxima (Mieliez, 1851). The popular, white, cutflower, early, immense size. Red spots in center petals.....	.50	5.00
	Fragrans . Deep pink flowers, late.....	.50	5.00
9.1	FRANCES WILLARD (Brand, 1907). Perfectly formed flower, very large semi-rose type. Late midseason; blush white, suffused yellow in collar.....	2.50	25.00
	General Gorgas (Van Leeuwen, 1924). Pure white cup-shaped flowers with large petals. An erect, strong growing variety. Midseason.....	3.00	
8.9	Georgiana Shaylor (Shaylor, 1918). Beautiful rose-pink. Probably the finest of Mr. Shaylor's seedlings. Late midseason.....	2.00	20.00
8.5	Germaine Bigot (Dessert, 1902). Clear rose-pink, with lighter flesh-colored tints in the center. Petals broad. Midseason. Very free-flowering.....	.50	5.00
8.2	GIGANTEA , Syn. Lamartine (Calot 1860). Exquisite pink color and pleasing fragrance. Blooms early. A much sought-after peony of immense size, fine color and rose-fragrance.....	.85	8.50
8.2	Gismonda (Crousse, 1895). Lovely flesh pink with rose center. Tall strong grower with stout erect stems. Late. Very fragrant.....	1.25	12.50
7.6	Gloire De Touraine (Dessert, 1908). Deep amaranth-red flowers. VERY late.	1.00	10.00
8.2	Grover Cleveland (Terry 1904). Fine dark crimson.....	1.25	12.50
	INSPECTEUR LAVERGNE (Doriat, 1924). New. Fine globular flower, very full vivid crimson, frilled petals in center. Beautiful variety with an abundance of bloom. The color is unique and the variety offers great promise.....	15.00	
8.7	James Kelway (Kelway, 1900). An unusually beautiful white peony, overlaid with a flush of delicate pink, tinged yellow at the base of the petals. Tall. Early midseason.....	1.50	15.00
9.2	Jeannot (Dessert, 1918). High built, rose-type flowers a delicate ethereal shade of flesh pink with tinting of lavender. Late. A magnificent Peony that deserves a place in every collection.....	7.00	
8.9	Jubilee (Pleas, 1908). One of the largest peonies in existence, measuring 8 to 9 inches. Flat, rose-type, very full with long, narrow petals. Opens blush-white, changing to snow-white. An ideal exhibition flower.....	1.50	16.00
8.8	KARL ROSENFELD (Rosenfield 1908). The finest all-around pure deep red Peony. Large flower of perfect form on tall strong straight stems; vigorous grower, good dark green foliage. Early midseason.....	.75	7.50
	Kaub (G. & K.) Flesh pink; fine shaped flowers. Midseason.	3.00	30.00
9.8	Kelway's Glorious (Kelway 1909). Creamy-white with soft blush of rose. Fragrant, full double flowers of immense size.	6.00	
	Konigin Wilhelmina (Krelage, 1912). Light hydrangea pink flowers of immense size. Blooms midseason.....	1.50	15.00
9.1	LADY ALEXANDRA DUFF (Kelway 1902). Beautiful French white, tinted with a very fresh, delicate shade of blush or palest pink, large, nicely formed and fragrant. Very free flowering, tall and robust. Ideal in the landscape.....	2.00	20.00
7.8	La Fayette (Dessert, 1904). An early free-flowering variety with large silvery pink flowers.....	1.00	10.00

Rating		Each	Per Doz.
9.0	LA FRANCE (Lemoine 1901). In producing La France, Mr. Lemoine eclipsed everything that he had introduced that far. Lovely La France pink of unusual clear tone. The flower is large, perfectly double of the rose type; blooms late midseason.....	2.50	22.50
8.6	LA LORRAINE (Lemoine, 1901). Large cup-shaped flowers of creamy white, shaded flesh-pink towards the center, with saffron glow from a few buried stamens; on tall, stout stems. Midseason. A superb variety.....	3.75	37.50
8.5	La Perle (Crousse, 1886). A very fine peony of perfect form, globular and of compact rose type. The broad outer petals are delicate lavender-pink and enclose a compact globular center of wide petals that are a deeper color.....	.50	5.00
8.1	La Tendresse (Crousse 1896). Milkwhite, good sized flowers. Midseason.....	1.00	10.00
8.3	La Rosiere (Crousse). Pure white with golden stamens, semi-double.....	.75	7.50
7.5	La Tulipe (Calot 1872). Tall, large and free-flowering; blooms early midseason and is especially fine for cutflowers. General appearance, light pink60	6.00
9.9	LE CYGNE (The Swan). (Lemoine 1907). The highest rated Peony in existence; a most perfect form and exquisite shade of cream-white that seems as though it never could be surpassed or even equalled.	4.50	45.00
8.8	LILLIAN GUMM . Large deep even rose-pink, very fine fragrance; tall vigorous, strong stiff stems, excellent foliage. Late midseason.....	2.50	25.00
8.1	Livingstone (Crousse 1879). Massive solid light pink, perfect rose type, very large and compact flower that blooms late.....	.50	5.00
9.0	Longfellow (Brand 1907). Bright crimson with cherry tone, tall. Midseason....	2.00	20.00
8.4	Lora Dexheimer (Brand, 1913). Double red flowers of clear and lively color. Midseason.....	1.50	15.00
7.8	LORD KITCHENER (Renault 1916). A remarkable very early red Peony of bright color and very free-flowering. The plant is of medium height and the flowers of medium size. Only one or two other reds are as early.95	9.50
8.6	Mme. Auguste Dessert (Dessert 1899). A uniform violet-rose with guards and center marked crimson; free-flowering, early midseason, desirable for cutflowers as well as for landscape work.....	1.00	10.00
8.1	Mme. Calot (Mieliez 1856). A good cutflower peony; very free blooming and vigorous grower. Large flower of flesh-pink with shell-pink shadings. Early.	.60	6.00
7.9	Mme. De Verneville (Crousse 1885). Popular white cutflower, early, very free-blooming.....	.50	5.00
7.9	MME. DUCCEL (Mechin 1880). This Peony is often called the smaller edition of Mons. Jules Elie. It very much resembles Jules Elie and produces far more blossoms. It comes nearly as early and the flowers though not quite as large as Mons. Jules Elie are quite large and solid and possess very nearly the same color, a uniform pink. Medium height and of vigorous growth.....	.50	5.00
8.5	Mme. Emile Galle (Crousse 1881). Flowers an ethereal shade of pink of unusual loveliness. Blooms late and has wonderful keeping qualities. We can highly recommend it to those who need a late blooming peony of beautiful soft coloring and elegant shape. Possesses an unsurpassed elegance of form	.50	5.00
8.9	MME. EMILE LEMOINE (Lemoine 1899). Magnificent flower of immense size, white, opening soft pink on strong stiff stem and possessing remarkable quality. Better than Festiva Maxima.....	.95	9.50
8.2	Mme. Gaudichau (Millet, 1902). Flowers a dark crimson with a black, glossy sheen. Foliage and stems also dark red. Late midseason. Tall.....	2.00	20.00
7.9	Mme. Geissler (Crousse 1880). Deep pink, large globular flower, blooming midseason to late.....	1.00	10.00
9.4	MME. JULES DESSERT (Dessert 1909). Opens a delicate shell-pink fading to beautiful straw white with a golden glow in the center reflected from the golden stamens. Free-blooming, late midseason. The flowers are very large, of perfect shape and borne on tall stiff stems.....	1.95	19.50

Rating		Each	Per Doz.
8.5	Mme. Manchet (Dessert, 1913). Old-rose pink, shading carmine at the base of the petals. Tall stiff stems. Late.....	1.50	15.00
7.7	Mme. Savreau (Savreau, 1906). Large compact flowers. Lilac-white guards and crown; collar cream-yellow. Early midseason. Tall.....	1.50	15.00
8.0	Mlle. Leonie Calot (Calot 1861). Light pink, tall grower, free bloomer. Late midseason.....	1.00	10.00
8.2	Marcelle Dessert (Dessert 1899). A good early white.....	.60	6.00
8.4	Marguerite Gerard (Crousse 1892). Hydrangea-pink, changing to pure white. Fine form.....	.60	6.00
8.9	MARIE CROUSSE (Crousse 1892). Almost uniform light salmon pink. Immense globular bloom and one of the loveliest of all peonies. Both in color and form of the flower and habit of the plant it is a variety that you should not be without.....	1.00	10.00
8.2	Marie Jacquin (Verdier). Syn. Waterlily. A very popular semi-double and very fragrant Peony of a beautiful glossy rose white.....	1.00	10.00
8.5	MARIE LEMOINE (Calot 1864). A marvelous late white that is always sure to come in perfect form; the color is sulphur-white, shaded chamois. Compact rose type. Large flower on erect, strong stem of medium height. Very pleasing fragrance.....	.50	5.00
7.8	Marquis C. Lagergreen (Dessert 1911). Brilliant velvety cherry-red, slightly tinged violet, silver tipped. Large, semi-imbricated flowers. Strong vigorous grower and free bloomer. Blooms midseason.....	1.25	12.50
9.1	Martha Bulloch (Brand 1907). Mammoth flower, lovely bright rose pink. Late.....	2.50	27.50
8.7	Mary Brand (Brand 1907). Dark, clear crimson flowers with a brilliant sheen. Midseason.....	1.50	15.00
9.0	MILTON HILL (Richardson 1891). Very light shell-pink of a luminous quality. Large flower, late, medium height. Strong stem, excellent foliage.....	4.00	40.00
	MINAMOTA (Millet) Lovely rose-pink. Semi-double. We recommend this Peony to those who prefer fine coloring to size.....	1.25	12.50
7.7	Mireille (Crousse, 1894). Very large, globular rose-type flower. Milk-white. Very late, fragrant, good cutflower.....	.60	6.00
7.8	Modeste Guerin (Guerin 1845). Solferino-pink, tinged carmine, bomb-type. Good lasting qualities, blooms early and has the fragrance of the American Beauty Rose.....	1.00	10.00

Our large acreage of Modern Peonies enables us to give you liberal grade, low price and accuracy in filling your order

Showing Size and Profusion of Bloom on two-year old Plants of Peony *THERESE*

Rating		Each	Per Doz.
8.3	Monsieur Dupont (Calot 1872). A good free-blooming late white.....	.50	5.00
9.2	MONSIEUR JULES ELIE (Crousse 1888). The favorite early pink. Immense flowers on tall straight stem.....	1.00	10.00
7.7	Monsieur Krelage (Crousse 1883). Solferino-red, free bloomer.....	.60	6.00
8.8	MONSIEUR MARTIN CAHUZAC (Dessert 1899). Deep glossy maroon; early. A magnificent Peony that always attracts attention.....	2.25	22.50
	Mr. L. Van Leeuwen (Nieuwenhuyzen 1916). Pure light crimson, double type flowers. Robust grower and abundant bloomer. Fine cutflower. Late mid-season. Took first prize for best crimson at Fort Wayne National Peony show.....	5.00	50.00
9.2	Mrs. C. S. Minot (Minot, 1914). Very large flowers of flesh-pink with coppery tints on outer surfaces of petals. Center incurved flesh-white in collar darkening to cream-pink in center, illumined by a few golden stamens. Free-flowering. Strong grower.....	8.00	80.00
9.3	Mrs. Edward Harding (Shaylor 1918). Early pure white.....	3.00	
	NANETTE (Doriat 1924). This Peony possesses great charm in the formation and color of the flower. It blooms very early with straight stems. The color is beautiful white, illuminated by the light of golden stamens. It is a Peony that grouped in the landscape with Evergreens is of overwhelming beauty. Free-flowering.....	10.00	100.00
8.5	Octavie Demay (Calot 1867). Because it blooms so early (sometimes earlier than <i>Edulis Superba</i>) and is a lovely soft pink with delicate fragrance and finely formed flower, this peony is becoming ever more popular. It is one of the finest landscape peonies, because of its abundance of flowers and beautifully arranged foliage.....	.65	6.50
	Othello (Lemoine 1916). Double deep purple crimson, rare.....	1.00	
9.2	Phillippe Rivoire (Rivoire 1911). Wine-red. Fragrant as the June rose.....	5.00	
7.7	Philomele (Calot 1861). Tricolor, midseason.....	1.00	10.00
7.6	Pierre Dessert (Dessert & Mechin, 1890). An early dark red, with garnet shadings.....	.75	7.50
8.2	PIERRE DUCHARTRE (Crousse, 1895). Old-rose pink with a silvery sheen. Fragrant. Late.....	1.00	10.00
8.7	PRESIDENT TAFT (Calot 1857). See: <i>Reine Hortense</i>	1.00	10.00
8.6	PRIMEVERE (Lemoine 1907). Nearest to yellow in the <i>Chinensis</i> type. Yellow center, outer petals rosy white.	2.50	25.00

Rating		Each	Per Doz.
	Prince of the Netherlands (Krelage, 1919). Tyrian-rose with silvery reflex. Loose crown-type flowers. Late midseason. Tall stem.....	5.00	55.00
7.4	Princess Beatrice (Kelway, 1866). Lilac, rose and cream combination. Mid-season.....	.75	7.50
8.7	REINE HORTENSE Syn. President Taft. One of the most outstanding peonies. It blooms ahead of Sarah Bernhardt, it is a little lighter in color (Hydrangea Pink) and produces a mammoth flower of perfect shape on a long stiff stem. We recommend it highly.....	1.00	10.00
8.8	RICHARD CARVEL (Brand 1913). A valuable addition to the red sorts for cut-flowers as it blooms very early; the color is uniform bright crimson; immense flowers of globular bomb-type on tall stout stems. A profuse bloomer.....	2.00	20.00
8.3	Rachel (Lemoine 1904). Soft apple-blossom pink such as found in Sarah Bernhardt. Like the latter it is an ideal cutflower variety, vigorous growth. Late mid-season.....	1.00	10.00
	Rauenthal (G. & K., 1913). Semi-rose type flowers of soft mauve-rose with silvery tipped petals. Late Midseason, strong grower. A remarkable variety.....	2.50	25.00
9.0	Rosa Bonheur (Dessert, 1905). Erect growing variety, with strong stems. Large rose-type flowers of soft 'mother-of-pearl' pink. Fragrant. Late.....	2.50	25.00
	Rosea Superba (Syn., Robert Fortune). Large rose-pink flowers. Late.....	.50	5.00
8.8	Rosette (Dessert 1918). Delicate shell-pink, illuminated with salmon tints at base of petals.....	1.75	17.50
7.2	Rubra Superba (Richardson 1871). Late red.....	.60	6.00
	Rudyard Kipling (Kelway, 1912). Cerise-red. Late.....	1.00	10.00
9.0	SARAH BERNHARDT (Lemoine 1906). A most perfectly formed flower of lovely deep apple-blossom or rose pink, on graceful stems. The plant is vigorous and very free-blooming. Received first prize as best dark pink Peony at the American Peony Show at Fort Wayne, Ind., June 15, 1926. Our stock of Sarah Bernhardt is magnificent; strictly healthy and admired by all who come to visit us during the Peony season. Do not confuse this Sarah Bernhardt of Lemoine with Sarah Bernhardt by Dessert which is nothing else but Umbellata Rosea. Late.....	1.00	10.00
9.7	Solange (Lemoine, 1907). Waxy white suffused with reddish golden light. One of the most perfect Peonies. When it comes in its excellent form there are few Peonies that can equal it.....	2.00	22.50
9.1	SOUVENIR DE LOUIS BIGOT (Dessert 1912). The one deep rose Peony that does not fade in the sun. Beautiful Bengal Rose; large flower of perfect rose type, medium tall and upright. Flower stems are arranged as though in a vase.....	2.00	22.50
8.0	Stanley (Crousse 1879). Light old rose pink, tall strong stems. Unexcelled as a cutflower. Late.....	1.00	10.00
8.2	Suzette (Dessert, 1911). Fine for landscape effects. Beautiful Bengal Rose...	1.00	10.00
9.8	THERESE . The highest rated Pink Peony. A variety of exceptional beauty, in form, in color and in free-flowering qualities. There is no Peony in our fields that receives greater attention. The flower is of immense size on strong straight stem; its form is the rose type, very graceful and pleasing, the color a lovely soft pink. Blooms early.....	1.95	19.50
9.4	Tourangele (Dessert, 1910). Pale cream-white, with an amber suffusion in the depths of the petals, toning to flesh salmon-pink in the center. Medium height, bending stems. Free-blooming. Midseason to late.....	2.00	
7.8	Triomphe De L'Exposition De Lille (Calot, 1865). A favorite light pink cut-flower, late midseason, free-blooming, vigorous.....	.60	6.00
8.3	VENUS (Kelway, 1888). Exceptionally tall plant with lovely flowers of high crown type; delicate shell-pink color and with true June rose fragrance.....	.95	9.50
8.2	Victoire De La Marne (Dessert, 1915). Very large velvety amaranth-red flowers; tall and strong growing variety. Midseason.....	1.50	15.00
9.3	WALTER FAXON (Richardson, 1904). Coral-pink, a most exquisite color. Midseason.....	2.00	20.00

Single and Japanese Peonies

These two classes are very recommendable for delightful color effects. Massed in front of Evergreens or tall shrubs, their beauty can hardly be equalled by any other plant. The flowers are carried gracefully on slender stems and both the form and color of the flower, form fine material for those artistically inclined. There are numerous places in the Garden where these Peonies add a touch of exquisite beauty that no other plant could offer at that particular time of year.

Japanese Peonies

This type is characterized by five or more cup-shaped, rounded guard petals, surrounding a large center of staminodes or petaloids.

Rating		Each	Per Doz.
8.1	Akalu. Dazzling carmine-red. Upright growing variety and carries its blooms gracefully on strong stems. Midseason.....	\$2.00	\$20.00
	ANTWERPEN. Carmine pink, immense flowers. Early to midseason.....	15.00

	Eva. Very lively shade of carmine-crimson. Fine landscape variety. Early to midseason.....	3.00	30.00
	Eveline. Fine shade of clear dark pink. Midseason.....	2.25	22.50
	Francois. Two rows of bright rose petals. Midseason.....	1.75	17.50
	Fuji-Zome-Gorono. Wisteria pink. Midseason.....	3.00	
	FUYAJO. Mahogany, tipped light bronze. One of the richest shades. Deserves a place in every garden.....	5.00	50.00
	GEISHA. Clear bright red. Two rows of petals. Compact, pure yellow centre. Tall stems. Late.....	8.00	80.00
	Germaine. Rounded petals of bright red, surrounding yellow staminodes. Late.....	2.50	25.00
	Gertrude. An excellent variety. Very soft carmine pink flowers. A heavy comb of clear yellow staminodes; incurved. Late.....	1.75	17.50
	Hakodate. Pure white with a large golden center. Large. A very scarce sort. Midseason.....	25.00	
9.0	Henri Potin (Doriat, 1924). Deep china pink shaded carmine. Midseason.....	3.00	30.00
9.3	ISANI GIDUI. Large flowers of pure white, surrounding crown of gold staminodes. Midseason.	7.50	
	Jacqueline. Glittering pure white. Midseason.....	2.50	
	Josephine. Light carmine red. Large pure yellow centre. Guard petals incurved. A showy variety on tall straight stems. Midseason.....	.75	7.50
	Kameno-Kerogama. A fine clear red. Midseason.....	1.50	15.00
	Kara-Ori-Nishiki. (Name of a Beautiful Cloth). The uniquely fluted petals, with ends deeply indented, are white, irregularly streaked and tipped with lilac-red.....	2.50	25.00
8.6	King of England (Kelway, 1902). Glossy garnet red. Tall growing and large flowered. Blooms early midseason.....	2.75	27.50
	Meigetsuko. (Moonbeam). Two rows of bright mauve-rose petals. Midseason.	2.50	25.00
8.6	MIKADO. The most popular Japanese Peony. Uniform shade of brilliant, almost cerise-crimson, staminodes of chamois-yellow, faced crimson; typical oriental coloring. Makes a fine cutflower that lasts well and is unsurpassed for landscape effects.....	1.25	12.50
	Mr. G. F. Hemerik. Very fine pink. Enormous flower with two rows of petals. Foliage like Astilbe. Beautiful variety. Midseason.....	15.00	
	Nicite Gawa. Midseason. Bright cherry-red flower with two rows of petals. Very full center of yellow petaloids.....	2.50	25.00

Rating		Each	Per Doz.
	Okinawa. Dark carmine. Early and very beautiful; not many laterals. Strong, wiry stems, dense foliage and very free blooming. Ideal for landscape effects.....	1.50	15.00
	Oki-No-Nami. Hydrangea pink. Early.....	2.00	
7.6	Petite Renee (Dessert, 1899). Carmine-pink. Early.....	.75	7.50
	RUIGEGNO. (Syn. Louise). Clear red, with two rows of petals. Beautiful. Early.....	2.50	25.00
	Shiro Sangai. A very choice white. Eight inch flowers are normal, produced very freely.....	2.00	20.00
	SOSHI. Clear deep red, which does not fade in the sun. Cup-shaped flower of great lasting quality. One of the most beautiful Japanese varieties. Strong grower and free blooming sort. Midseason.....	3.75	40.00
	SURUGA. Pure red. Very beautiful cup-shaped flower.*.....	5.00	50.00
9.4	Tamate-Boku. An exquisite variety and very scarce. Lively pink petals surround long, thread-like staminodes. We offer the genuine variety. Mid-season to late.....	15.00	150.00
	TOKIO. Extra large, clear pink.....	3.00	30.00
	Yoochi-No-Tsuki. White occasionally flushed pink flowers, often 6 to 8 inches across. Midseason.....	2.75	27.50
	*Similar to Soshi.		

Single Peonies

8.4	Albiflora Simplex (Syn. The Bride; or La Fiancee). Large pure white flower. Gorgeous massed in the landscape. Early.....	\$1.00	\$10.00
	Balliol. Dazzling red; very tall.....	1.25	12.50
	Dai-Jo-Kuhan (Millet). Magenta red flowers, edged rose, medium size; broad and round petals. Bushy foliage. Toward evening the flowers close and look like giant Tulips	1.25	12.50
	Hirishima. Violet-rose. Early.....	.75	7.50
	Iten Shikai. Unusual color combination; white color with red stripes; small, late blooming. An interesting sort.....	.75	7.50

8.4	L'ETINCELANTE (Dessert, 1905). Brilliant and yet soft velvety carmine with a silvery margin. In our opinion the best single Peony yet introduced. Received high honors at 1931 National Peony Show.....	.95	9.50
-----	--	-----	------

8.5	Madeleine Gauthier (Dessert, 1908). Flesh color, silvery rose; beautiful coloring. Large flower of perfect shape.....	3.00	
	Nymphe (Dessert, 1913). Bright flesh pink flowers which are very large. Early.....	1.25	
	Princess Mathilde (Dessert, 1913). Bright china pink marbled silvery white. Early.....	.75	7.50
	ROSY DAWN (Barr). Immense flower opening, tinted pink, fading to pure white. Charming in the landscape.....	1.50	15.00
7.6	Vesuve (Dessert, 1905). Dazzling deep red, a very fine color.....	1.00	10.00
8.0	Wilbur Wright (Kelway, 1909-10). Unusual and striking deep maroon; large flowers.....	.75	7.50

Paeonia Officinalis

	Officinalis Rosea Superba. Brilliant deep rose-pink fragrant flowers, one of the earliest to bloom	1.50	15.00
	Officinalis Rubra Fl. Pl. The old fashioned early red, that even in our latitude blooms before Decoration Day85	8.50
	Officinalis Tenuifolia Fl. Pl. The fern-leaved Peony. Deep crimson flowers. Early, precedes Officinalis Rubra fl. pl. For Rock Gardens and Perennial borders	2.00	20.00

Our Peony Show Garden

Those interested in Peonies will find at our establishment a Peony Show Garden, consisting of two each of all the varieties of Peonies we grow. This makes it possible to study a great number of varieties without necessitating going thru the fields. This garden is right near the office and forms a mecca for more and more Peony enthusiasts.

A Gorgeous Peony Border

(Order as Collection "B")

12 MODERN PEONIES, all different and all with American Peony Society rating of 8 or over.

Plant three and a half feet apart, along the drive or in front of groups of shrubs, Evergreens or in the Perennial border.

\$5.75 prepaid

Botanical Peony "LOBATA"

Chinese Flowering Crab Apples

The real beauty and usefulness of the Flowering Crab-Apples does not seem to be widely known. A visit in the spring to the Arnold Arboretum at Boston, Mass., where hundreds of Flowering Crabs may be seen in great masses of color, cannot help but leave an impression that is never forgotten.

Several years ago we began to recognize the value of these Flowering Trees for Middle Western Gardens and since have built up a collection that, we believe, will prove of great interest to all.

Flowering Crab Apples form very fine background material, or as specimen trees on the lawn or in between lower growing shrubs. Over large areas they may be placed in groups. They add a profusion of color to the spring picture while the fruit, which comes in yellow, bright red, and deep red, does not only add to the beauty of the trees in the fall, but attracts birds which greatly relish it. Almost all Flowering Crab-apples are excellent for cutflowers as they last well after cut.

Note: One dozen plants at the price of ten.

	Size	Each
MALUS ARNOLDIANA (Arnold Crab) Semi-double, pink blossoms, early spring; yellow fruit; attractive foliage.....	2-3 ft.	\$.95
	3-4 ft.	1.25
MALUS ATROSANGUINEA (Carmine Crab) Excellent lawn specimen. A mass of single crimson blossoms in early spring.....	18-24 in.	.60

MALUS ZUMI CALOCARPA. NEW. Large pink and white flowers, brilliant scarlet fruit. Handsome.....	3-4 ft.	1.75

Japanese Rose-Flowering Cherries

One of our Specialties.

These Beautiful Trees have proven perfectly hardy in this climate. They have stood all winter temperatures here without protection and we have never noticed any winter injury.

Thousands and thousands of people travel to Washington, D. C., every year to admire the wonderful display of Cherry Blossoms along the Potomac Basin where are planted several hundred Japanese Flowering Cherry Trees presented to the United States Government by the Japanese Government.

We offer here the large double-flowering varieties. They bloom early in May and their miraculous beauty, coming so soon after winter has passed, makes a picture of delicate beauty.

HISAKURA. Deep double pink flowers, foliage purplish-red. One of the finest varieties.....	2-3 ft.	\$1.75
	3-4 ft.	2.50
	4-5 ft.	3.50
New Red. New.....	4-5 ft.	4.50

Sekizan. Double Old Rose Flowers, a very striking sort.....	3-4 ft.	3.00
Shirofugen. Light pink, large double flowers.....	2-3 ft.	1.50
	3-4 ft.	2.25
	4-5 ft.	3.75

French Hybrid Lilacs

French Lilacs are a specialty at Cottage Gardens. Most of our varieties came directly from the originators in Europe and we use a method of propagation that produces ideal plants, insuring flower trusses of immense size and vigorous foliage.

Note: Most French Lilacs are budded or grafted on California Privet. Although this is the quickest and most economical way of propagating these plants, it results in short-lived, dwarfed plants, producing small blossoms.

	Size	Each
Buffon, single, elegant clusters of flowers with reflexed lobes, mauve pink, early....	3-4 ft.	\$2.50
Claude Bernard, semi-double, bright lilac, early.....	3-4 ft.	2.50
Edouard Andre, double, clear rose nearly pink, one of the best of this color. Compact trusses.....	2-3 ft.	2.00
French Giant, single, typical lilac, long truss.....	2-3 ft.	1.50
Katherine Havemeyer, one of the handsomest double Lilacs, large and compact panicles, enormous flowers of the most perfect shape, with broad imbricated lobes; cobalt lilac flushed mauve, with a distinct blue cast when fully open. Early. NEW.....	2-3 ft.	4.50
Lamartine, single, large clusters of rosy-mauve flowers, shading to bluish-mauve as the flower ages, fast growing and free-blooming. Early.....	3 ft.	2.00
Louis Henry, double, red bud opens dark purple, when fully open entire flower rosy-lilac. Midseason.....	3 ft.	2.00
Louvois, single, immense clusters of large flowers; buds red-purple, opening to blue-mauve. Very early.....	3 ft.	1.75
Mme. Casimir Perier, double, very fragrant creamy-white, early and free-blooming.....	3 ft.	1.75
Mme. Lemoine, double, very large, compact trusses of cream-white. Strong grower, but dwarf and compact in habit. Midseason to late.....	2-3 ft.	1.50
Marie Legraye, single, pure white, large panicles, free-flowering. Early to mid-season.....	3 ft.	1.25
Mont Blanc, single, enormous individual florets; a refined good-sized truss, pure white. Fine variety.....	3 ft.	2.00
Pascal, single, pale lilac to steel blue, very free-flowering, early.....	3-4 ft.	2.00
President Grevy, double, blue, one of the best in this color. Large flowers, Mid-season.....	2-3 ft.	1.25
Reaumur, single, a beautiful variety, opens red changing to dark violet, free-blooming.....	3 ft.	2.00
SOUVENIR DE LOUIS SPAETH, single, very large flowers of a rich shade of deep purplish violet with a black sheen. A splendid variety. Free-flowering and a strong grower. Late.....	3 ft.	1.25
Vauban, semi-double, long spikes of tender mauve fading to blue, early.....	3-4 ft.	2.00
Vestale, single, hyacinth-like white trusses, very symmetrical although individual flowers are coarse.....	3 ft.	2.50

French Tree Lilacs

(Standards 3 ft. high)

Budded on three foot stems; three year heads. Used in formal gardens or wherever height is desired with room for planting at the base.

Alexander Von Humboldt, double, red-purple.....	\$3.00
Captain Baltet, single, huge panicles of very large flowers of a warm shade of purple lilac. Handsome variety.....	5.00
Charles Tenth, single, lilac, free-blooming, midseason.....	2.75
Edith Cavell, double, bold, handsome clusters, pure white buds suffused cream white.....	6.00
Hippolyte Maringer, large compact trusses, double, purplish mauve.....	5.00

French Tree Lilacs (Continued)

	Each
Hugo Koster, single, lilac with reddish tinge.....	3.00
Jean Mace, double bluish-mauve.....	3.00
Mme. Lemoine, double white, very large.....	2.50
Marie Legraye, single white.....	2.50
Maxime Cornu, double, light rose-pink.....	6.00
President Grevy, double, blue.....	2.50
President Lincoln, single, wedgewood blue	6.00
President Roosevelt, single; purplish red.....	6.00
Souvenir De Louis Spaeth, single, purplish violet, late.....	3.00

Miscellaneous Lilacs

	Size	Each
Syringa Persica, Persian Lilac, gracefully formed flower of reddish lavender. Foliage not as coarse as that of common Lilac.....	3 ft.	.50
Josikae (Hungarian Lilac). Blooms after ordinary lilacs are gone, pale purple blossoms, large and beautiful.....	3 ft.	.75
Microphylla. Graceful slender stems; pale pinkish-red buds opening to pale pink, loose panicles, small individual florets. Effective in the landscape as it blooms later than French Lilacs. Often blooms again in the fall.....	15-18 in.	.95
Rothomagensis (Rouen Lilac). Grows 10-12 ft. Deep lavender flowers.....	3 ft.	.75
Sweginzowii, tall slender stems of a dark bronze color. At the end of May a profusion of many branched panicles of delicate pale pink, sweet scented flowers. Rather large long-tubed flowers with reflexed lobes, single. A variety of most elegant character and refinement, that is the more valuable because it blooms even later than Microphylla.....	3 ft.	.75
Villosa, pinkish lilac flowers, broad-leaved, dwarf growth, blooms very late....	3 ft.	.70

Evergreens

For Rock Gardens and General Landscape Effects

BIOTA ORIENTALIS AUREA NANA (Golden Chinese Biota). Compact, dwarf growing; flat foliage tipped bright golden. Very attractive little trees where bright color is desired.....	10-12 in.	\$1.25
	12-15 in.	2.00

JUNIPERUS

CANADENSIS (Canadian Juniper). Light green foliage; spreading type.....	3-4 ft.	3.00
Aurea (Golden Canadian Juniper). Same as above with golden foliage.....	15-18 in.	1.25
CHINENSIS COLUMNARIS (Columnar Juniper). A slender tapering spire growing 15 to 20 feet high; soft gray-green foliage.....	2½-3 ft.	5.00
Columnaris Viridis. This is a light, brilliant green form of the Columnar Chinese Juniper.....	2-3 ft.	5.00
Japonica (Japanese Juniper). Slow growing, somewhat spreading branches, dark green scaly leaves. For Rock Gardens and in general Landscape groups.....	12-15 in.	2.50
Pfitzeriana (Pfitzer Juniper). Spreading bush of slanting plume-like branches covered with dense feathery foliage, bluish-green in color. It resists drought, gas, and smoke which makes it valuable as a landscape variety even in crowded city plantings. One of the most beautiful of all Evergreens.....	1½-2 ft.	2.75
	2-3 ft.	4.50

	Size	Each
Sargenti (Sargent's Juniper). A very useful ground cover and rock plant for difficult situations; seldom more than two feet high. Will not tolerate shade. Broad dense mat of creeping stems, with scaly bluish green foliage on mature plants. Leaves more needle-like on younger forms.....	12-18 in.	2.25
COMMUNIS DEPRESSA PLUMOSA. NEW. (Andorra Juniper). Plumy deep rich silver-green foliage turning a very pleasing shade of reddish purple in the fall. A charming and unusual color. Its low growing spreading form, lifting its branches only 15-18 inches off the ground makes it very useful for Rock Gardens or planting at the base of taller Evergreens.....	18-24 in. 2-2½ ft.	3.25 4.50
Suecica (Swedish Juniper). Light green foliage; tree grows in compact spire-like form.....	2-3 ft.	2.25
Hibernica (Irish Juniper). Erect, very formal in growth; the favorite evergreen for columnar effect. Very compact, sage-green foliage.	1½-2 ft. 2-3 ft. 3-4 ft.	1.75 3.50 4.25
Excelsa Stricta (Spiny Greek Juniper). Stiff, erect tree, gray green foliage.....	1½-2 ft. 2-2½ ft.	2.50 3.50
Horizontalis (Creeping Juniper). Deep glossy green scale-like leaves. A dense crawling Evergreen. Excellent for banks or rock gardens where there is room for it to spread normally.....	2-3 ft.	3.50
Horizontalis Glauca Alpina (Blue Creeping Juniper). Denser, neater habit than the common Creeping Juniper and foliage is a pleasing steel blue.....	2-2½ ft.	4.50
Sabina (Savin Juniper). Forms dense dark green mats. Especially good color in the winter.....	1½-2 ft. 2-3 ft.	3.00 4.50
Tamariscifolia (Tamarisk Juniper). Seldom more than 18 inches high, flat wide-spreading ground-cover. Soft feathery foliage of pleasing shade of deep green.	1½-2 ft. 2-2½ ft.	3.25 4.25
Squamata Meyeri. NEW. (Meyer's Juniper). Eventually grows 4 to 5 feet in height. Most unusual in its habit of growth and coloring. A mature plant is almost as broad as it is high. Rather fleshy leaves of deep glossy bluish-green, which are tinged lavender in the winter. A remarkable New Evergreen for Rock Gardens, around pools or grouped with other Evergreens.	10-12 in. 12-15 in.	2.25 3.00
Virginiana Burki. NEW. (Burk's Juniper). A very distinct Juniper, of upright branchy habit in growth. Bluish green turning purplish-blue in the fall. Considered of better habit than Juniper Virginiana Glauca.....	2½-3 ft.	5.00
Elegantissima Lee (Golden-tipped Red Cedar). Slender cone of bright green; with bright golden tips, graceful branches.....	1½-2 ft.	2.50
Cannarti (Cannart's Cedar). Narrow column of richest dark green foliage. An aristocrat of the Cedars.....	2-2½ ft.	4.25
Glauca (The popular Silver Cedar, also called Blue Cedar). Narrow growth attaining 15 to 20 feet, foliage silvery blue-gray-green, giving the plant a distinct frosty hue.....	2-2½ ft.	4.00
Ketleeri (Keteleer's Cedar). Compact, formal outline, making a thick bright green pyramid eventually reaching 15 to 18 feet high, with a base of 4 to 5 feet in diameter. Keeps its pleasing green color all year. Branchlets quite fleshy. Slate-blue fruits in fall; very attractive.....	2½-3 ft.	5.00
Koster i (Koster's Cedar). Bushy, spreading plant with plumy deep green foliage. Attains a height of about 3 feet. Splendid for Rock Gardens and in groupings at the base of taller trees.....	15-18 in.	2.25
PICEA, Black Hills. Semi-spreading hardy spruce with deep green foliage.....	1½-2 ft. 2-3 ft.	2.00 3.00
Excelsa (Norway Spruce). The well-known "Christmas tree." Very hardy.....	2-3 ft. 3-4 ft.	1.50 2.00
Pungens (Colorado Spruce). Specimen trees having deep green foliage.....	18-24 in. 2-3 ft. 3-4 ft.	2.00 4.25 6.25

Evergreens (Continued)

	Size	Each
Glauca (Colorado Blue Spruce). Selected trees having distinct steel-blue foliage. Very symmetrical in growth.....	12-15 in. 18-24 in. 2-3 ft. 3-4 ft.	2.50 5.25 7.25 10.25
PINUS AUSTRIACA (Austrian Pine). Long dark green needles and boldly spread branches. Good for planting as a background in the landscape. Very robust and can be planted in almost any situation.....	2-2½ ft.	2.75
Montanus Mughus (Mugho Pine). Flat, spreading plant, grows horizontally and forms a mat of stiff erect branchlets, 2½-3 ft. high. Fine even green color thruout the year. Useful in all sorts of plantings. Makes a pleasing globe form and can be kept small very easily.....	10-12 in. 12-15 in. 15-18 in. 1½-2 ft. 2-2½ ft.	1.50 2.00 2.50 3.50 5.25
Sylvestris (Scotch Pine). We offer so-called sheared specimens, that are very compact and full; entirely different effect than when it is allowed to grow and develop normally. Very hardy, grows rapidly.....	1½-2 ft. 2-3 ft.	3.00 4.00
RETINISPORA (Chamaecyparis) Pisifera (Sawara Cypress). Foliage is arranged in flat fan-like branchlets, horizontally.....	3-4 ft.	4.00
Plumosa Aurea (Golden Plumy Cypress). Foliage is a warm yellow.....	3-4 ft.	3.50
Plumosa Vera . Green plummy foliage.....	2-3 ft.	2.00
THUYA Pyramidalis (The well-known Pyramidal Arbor Vitae). Stiff, upright columnar form with short stubby branches. Especially fine in formal plantings. Price per foot	Up to 4 ft. 4-6 ft. 6 ft. and up	1.00 1.50 2.00
Occidentalis Wareana (Siberian Arbor Vitae). A robust variety of pyramidal habit. Foliage is a bright green. Fine for hedges.	1½-2 ft.	2.50

Plicata (Western Arbor Vitae). Very hardy and a rapid grower. Compact conical growth.	1½-2 ft.	1.75
We can furnish large specimens of almost all Evergreens listed, and will be glad to send you our list of these.		

New and Rare Shrubs of Special Interest

Although we grow a general collection of Hardy Shrubs, we bring to your attention here the scarce and rather unusual kinds.

CARAGANA Decorticans . Dwarf shrub with slender branches, strongly set with sharp little thorns. Small bright green foliage and pretty yellow blossoms. Very hardy.....	15-18 in.	.75
Frutex . Upright growth, lively yellow flowers, blooms early.	15-18 in.	.75
Arborescens LORBERGII . Small leaved, remarkable and graceful form, perfectly hardy. A plant that will prove of great usefulness when better known.....	2-3 ft.	1.50
CRATAEGUS Wm. PAUL'S . Double Red-flowering English Hawthorn. Double scarlet flowers in late spring.....	3-4 ft.	1.50
CYTISUS (Laburnum). Alpinum . (Golden Chain). Very much hardier than Laburnum Vulgare and blooms about 2 weeks later with much longer and slender racemes of golden yellow blossoms, 5 to 6 canes.....	15-18 in.	.75
DAPHNE MEZEREUM RUBRUM . A small hardy shrub, growing 4 feet high and blooming in March or April, long before the leaves appear. The deep red flowers appear closely along the stems and have a delightful fragrance.....	15-18 in.	2.00
FORSYTHIA Spectabilis . An improved form of the old variety Fortunei. The blossoms are larger, deep golden yellow and come in great profusion.....	2-3 ft.	.50
PHILADELPHUS , Lemoine's New Hybrids.		
Avalanche , splendid habit, small foliage, fragrant white flowers.....	2-3 ft.	.60
Bouquet Blanc . Double white, set in thick clusters.....	2-3 ft.	.60

New and Rare Shrubs (Continued)

	Size	Each
Favorite. Large single flowers, 3 in. wide, pure white with a bunch of yellow stamens.....	2-3 ft.	.60
Girandole. Often considered to surpass Virginal by the perfect shape and beauty of the flowers.....	2-3 ft.	1.00
Glacier. Double flowers, clustered by six or seven in thick panicles, milk white.	2-3 ft.	.60
Mont Blanc. Upright growth with a profusion of sweet-scented white flowers.	2-3 ft.	.60
Norma. Very tall, 10 ft. high, large single white blossoms.....	2-3 ft.	.75
Ophilia. Long arched branches, heavily laden with very fragrant crinkly mostly double flowers, flesh-white with white gold stamens. Slow and compact growth, strong, delightful fragrance.	2-3 ft.	.55
Romeo. Pretty and distinct flowers, creamy white with small purple blotch. Medium growth, maturing 5 to 7 feet.....	2-3 ft.	.55
VIRGINAL. In our opinion the most beautiful of all white-flowering Shrubs. The large double pure white flowers are produced in dense clusters that perfume the garden. A vigorous and tall grower. If you have never seen this new double Mock Orange, order a few and we assure you that you will be thrilled by its miraculous beauty.....	1 1/2-2ft. 2-3 ft. 3-4 ft.	.45 .55 .65
PRUNUS TOMENTOSUM (Nanking Cherry). It really is a pity that this shrub is not better known for it is one of the most desirable plants. The flowers, set along the stem open soft pink, changing to white and appear just as soon as there is some warm weather in April. The foliage is of medium size and a beautiful deep green and dense. In June the branches are closely set with bright red fruit, 1/2 inch in diameter, which forms a great attraction for the birds. We recommend this interesting shrub for your garden.....	3-4 ft.	.90
VIBURNUM CARLESI. NEW. A valuable addition to the Viburnum family. Round heads of white flowers, faintly tinted rose at first and possessing a delightful fragrance. Nice bushy habit and flowers freely. Balled and Burlapped.....	15-18 in. 2-3 ft.	1.50 2.50
Rhytidophyllum. Leather Leaf Viburnum. A striking evergreen shrub with remarkable foliage; the leaves are 8-9 inches long and 2-2 1/2 inches broad, prettily crinkled. The upper surface a wonderful deep green and lustrous; the under surface is covered with brownish colored hairs. Flowers yellowish white, followed by deep red berries; very rare. Balled and Burlapped	2-3 ft	2.50

Iris Germanica (German Iris or Fleur de Lis)

Most popular of all Irises; will thrive and bloom in almost any location and soil. They are sun-loving plants, and like any other plant, respond to care.

Aquilegia (Columbine)

Large, Long Spurred Columbines

Aquilegia, Long spurred, Cottage Gardens Hybrids. Beautiful shades of orchid, blue, yellow, rose, purple and scarlet.

Each, 35 cents; \$1.00 per three; \$3.50 per dozen.

Delphinium Cottage Gardens Hybrids

(Perennial Larkspur)

Tall stems, exquisite shades of blue, blue tinted rose; single, semi-double and double flowers. Grow 5 to 6 ft. tall. Three for 75 cents. \$2.00 per dozen.

Delphinium Hybrids

Regal Lily (Lilium Regale)

Indeed a Regal Lily; sturdy stems 4-5 ft. high. Centers of the beautiful white flowers are flushed yellow; on the outside streaked with brown. Blooms in July. Plant about 7 inches deep. If your soil is heavy, place an inch of sand under each bulb.

6-7 inch Bulbs .30 each. \$2.75 per doz. \$20.00 per 100.

7-8 inch Bulbs .35 each. \$3.75 per doz. \$30.00 per 100.

Lilium Tenuifolium

A dainty Lily, with slender stem bearing in early June, many showy, glossy scarlet flowers with reflexed petals. 1½ ft. high. Should be planted in a sunny location in light well-drained soil. Use some Gypsophila Bristol Fairy, double white amongst these.

.30 each. \$2.75 per doz. \$20.00 per 100.

Spirea Ulmaria fl. pl.

(Meadow Sweet)

Grows 3 ft. high and produces its double creamy-white flowers during June and July. Attractive foliage. Very fine with Delphinium.

.30 each. \$3.00 per dozen,

Spirea Ulmaria fl. pl.

One Vigorous Plant

that you know will thrive, and
bloom true to description is
worth any amount of poor
plants, no matter how little
you pay for them.
